MEMORANDUM FOR: Chief, Building Planning Staff
Office of Logistics

SUBJECT : Relocation of Headquarters Organizational Elements

1. The Director requested a report on the number of people that could be transferred from the Washington area to a dispersed location. All Chiefs of the organizational units of the Office of the Deputy Director (Support) were contacted and their memorandums on the subject are attached.

5. The dispersal of these employees was only based on their organization's ability to function at another location.

6. It is my opinion that the dispersal of some organizational elements and their employees would result in an inefficient organization. Personnel turnover, delays in transportation of paper and people, costs for increase in [redacted] T/O, capital expenditure for expansion of the water, sewerage and telephone systems, warehouse, [redacted] would be extremely high. Small liaison offices would also be required to serve the relocated organizations and the operating offices.

7. It is requested that upon receipt of data from the other Deputy Directors you prepare an overall agency report addressed to the Director for my signature.
